

EMPLOYMENT: Strategies for Longer-Term Success

Assessing skills, recognizing experience, shaping dreams are all part of the newcomer employment process. We need to help address immediate need, but at the same time, build strategies that lead to future employment pathways.

Become more knowledgeable about how to better assess employment skills, explore apprenticeship programs, and what is needed to embark on an entrepreneurship pathway.

Plan to spend another 30 minutes at the end of the workshop in breakout discussion with other sponsors to connect, learn and share.
