PRIVATE REFUGEE SPONSOR NETWORK Ontario

Education: Pathways to Adult Learning

Whether it's acquiring a high school diploma, improving English language skills, or trying to regain professional accreditation, education plays a key role in newcomers' successful settlement. It opens doors to better employment opportunities, promotes self-confidence, and helps newcomers contribute to their new communities.

Join us at this workshop to learn about the education pathways available to newcomers and what sponsors can do to help newcomers achieve their education goals. After the workshop, join our breakout sessions to connect, network, and share ideas and best practices.
